

Addendum Family Therapist

The primary responsibilities of this specialist are to provide family therapy assessment and interventions to children, youth and their families, and provide consultation to others from a family systems perspective:

Duties specific to this position include:

- Functions as a primary therapist on cases where it is deemed to be beneficial to use primarily a family therapy approach.
- Provides education to families on the impact of mental illness on their child's functioning using a family systems perspective.

- As part of a child and youth mental health multidisciplinary team, contributes to the development and implementation of treatment plans for children in the program by providing assessment of the client and their family functioning as requested by individual clinicians.
- Consults with community professionals, including school based teams, from a family systems perspective, as required.
